

#### Applications

- **Public monitoring of sound pressure levels in activities: Discotheques, TV sets, etc.**
- **Industrial activities: Information of sound pressure levels at workplace.**
- **Display and information of sound pressure levels in environmental stations (noise pollution).**

#### Main features

- **Giant LED digits**
- **Indoor and Outdoor environments**
- **Easy installation**
- **Easy reading from a distance**
- **To be used with loggers and limiters**

The external display DL100 consists of four 100 mm red LED digits that displays the sound pressure level measured by the **CESVA** loggers and limiters.

Thanks to its weatherproof design, the DL100 can be installed indoors and outdoors. The bright red light of the digits allows perfect reading from distance both in bright or dim environments.

The DL100 is perfect for public monitoring of sound pressure levels in controlled noisy activities or as a point of information of noise levels.

#### Technical specifications

- Power supply 230 V 50 Hz
- Digit dimension 100 mm
- Number of digits: 4
- Type of digits: numerical of 8 Leds
- External dimensions: 610 x 314 x 78 mm
- Weight: 6 kg
