

Isolation Strip Product Data

Description: Isolation Strip 46mm 5/10mm x 1.8m is a rubber-crumb, self adhesive strip that is used to decouple structural elements such as sub flooring and stud work from the adjacent surfaces ultimately helping to reduce impact noise issues passing through a structure. Each strip deviates between 5-10mm, helping to spread the load.

Dimensions: 5/10mm x 46mm x 1.8m
Density: 500-600 kg/m³
Mass: 4.99 kg/m²
Weight: 300g

Features and Benefits: Primarily used on top of a joist.
Also used around the perimeter of a stud frame or anywhere to create separation and reduce the transfer of vibration.
Mould, bacteria, fungi and water resistant.
Does not fail under heavy loads.
94% recycled content.
Varied height from 5 - 10mm for less contact area.
Self-Adhesive for ease of installation.
