

# MuteBoard 2 Product Data

**Description:** MuteBoard 2 is an ultra-thin, soundproofing solution to attenuate airborne noise when looking for an upgrade to standard plasterboard and acoustic plasterboard. It is a two-ply material which comprises of a high density 15mm acoustic plasterboard and 3.5mm visco-elastic material that helps to dampen vibration and increase airborne reduction. Suitable for both retro-fits and new builds.

---

**Dimensions:** 18.5mm x 1.2m x 1.2m  
**Sheet Size:** 1.44 m<sup>2</sup>  
**Mass:** 19.5 kg/m<sup>2</sup>  
**Sheet Weight:** 25 kg

---

**Features and Benefits:** Can be applied direct to brick/block walls when space is at a premium.  
Tapered edge.  
Plasterboard finish ready for skim/plaster layer.  
For reducing low level airborne noise, most commonly used internally on stud walls to yield best results.  
Great as an layer in a system as well.  
Can be attached on both walls and ceiling.  
Vibration dampening due to the Tecsound SY 70.
